PROJECTS

Ai-ats Resume Analyzer [Link](#)

- AI Resume ATS Analyzer is a full-stack web application that helps job seekers evaluate how well their resumes align with Applicant Tracking Systems (ATS). Users can upload a PDF resume and receive an instant AI-powered analysis, including an overall ATS score, strengths, weaknesses, missing keywords, and personalized suggestions for improvement. The application is designed for a seamless experience, requiring no registration or login, allowing users to analyze their resumes quickly and securely.
